

Jobs at IMO Control

COMPANY

IMO Control is part of the IMO Group, one of the largest international networks for the inspection, certification and quality assurance in organic agriculture and allied fields. IMO Control is the first organic certifier to start activities in India.

JOB PROFILE

Selected candidates will be carry out the inspections/audits of farms, estates and processing units according to Indian and international norms and standards. The job involves on-site visits to these operations all over India and verification of their compliance to the applicable standards. Selected candidates will be based at Bangalore and will be required to travel extensively for about 12 to 18 days a month.

REQUIREMENTS

We invite applications from highly motivated persons with a B.Sc/M.Sc in Agriculture or Life Sciences with 5 to 10 years' work experience in/with farms, estates and processing operations. Experience in quality management and certification activities is desirable. Besides good command of English and Hindi, knowledge of either Assamese, Kannada, Malayalam or Tamil will be an added advantage. Excellent communication and computer skills are necessary.

Candidates with experience in the plantation sector and already based at/near Bangalore will be preferred. We offer the possibilities of part time assignments as well as full time employment.
